ASTROLOGY FOR LOVERS REPORT

INTRODUCTION FOR COUPLES

The "Astrology for Lovers" program analyses the relationship possibilities and assesses the compatibility between two people. This report describes facets of individual character which reveal certain predispositions within relationships whoever the partner is, as well as facets solely evoked by a specific partner. By enhancing your positive and transforming your negative behaviour patterns you will be able to have optimal success in your relationship.

PROJECTIONS

When there is an attraction between two people there is also a powerful tendency to see qualities in the partner which are the projections of one's own idealised picture of the relationship. Should problems arise later the likelihood is that they arise from these projections. This analysis shows what kind of partner you are attracted to and what to do to avoid evoking negative behaviour in the partner through the previously mentioned projection mechanisms. Greater awareness of these partnership mechanisms can improve a relationship immeasurably.

CONTRADICTIONS

The rest of the analysis deals with the planetary interactions between the two horoscopes. This makes it possible to learn the lessons which this particular partnership has in store for itself and to judge its compatibility. Please bear in mind that a horoscope - and personal character - are immensely complicated and full of contradictions. Although this analysis does try to weigh up different contradictory factors, seemingly opposite characteristics may well be listed next to each other. In these cases one type of behaviour will tend to neutralise or simply conflict with the other.

LISTEN TO YOUR HEART

In the comparison of two horoscopes there will always be problematic contacts as well as harmonious ones. From the point of view of long-term relationships, problematic inter-aspects also show compatibility ... there is far more likelihood of a stable bond with many problematic contacts than with no cross-contacts at all. Above all remember that if you have met and fallen for a person then that already shows compatibility, whatever your horoscope says. First listen to your heart, then use what you can learn from this report to improve on what you have.

CHARACTER & EMOTIONS

IDENTITY

Though the Sun Sign is obviously a very general factor in relationships, it is - together with the sign the Moon is in - nonetheless powerful. It is important to remember that any Sign can successfully relate to any other Sign. Statistically there are no pre-dispositions of one Sign to another. However the interaction between two Sun Signs will give rise to special pleasures or challenges which will form part of the process of personal development for each partner. Your Sun Sign reflects your personal identity and desire to realise yourself - what is important is whether you feel supported in this quest or not.

Sun in Libra

Create balance

As a Libra, you are naturally interested in living your life together with another. Being in a partnership completes you. You seek harmony, and are willing to make considerable compromises for the sake of your loved one - though you are independent enough when it comes down to it. You tend to avoid confrontations and you try to get what you want by winning your partner over with your many persuasive techniques. It could pay off to be more straightforward. Your views have priority in matters of taste.

Sun in 11th House

The major area for your self-expression is in group ventures, and as a leading figure in networks of friends and associates.

Will's Sun in Jada Pinkett's 10th House

You make Jada Pinkett aware of the need to make some kind of personal impact on society through personal achievement. Perhaps you set an example yourself through your own status in society, perhaps you simply awaken her latent ambitions.

On the surface there is not a lot in common between Jada Pinkett, who has Sun in Virgo, and Will, with Sun in Libra, at least as far as inner character is concerned. However both like order and balance, though Jada Pinkett expresses this more in a practical way, whilst Will does so aesthetically. Will is seeking beauty and inner balance; Jada Pinkett just wants things to function smoothly.

What makes people with the same Sun Signs so different is the contacts to other planets - or aspects - that the Sun makes. The following section shows which planets in your horoscope aspect your Sun and thereby modify your identity - and what consequences this may have in relationships.

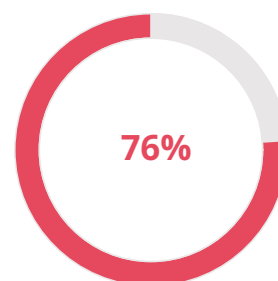

Sun negative North Node

Sense of fate

Contacts with other people will play an important role in your search to get in touch with your inner identity. Father figures - through their presence or through their disappearance - will force you to ask a lot of questions about the nature of your existence. Important people are often eclipsed from your life, in some sort of inner-realisation process. There is a sense of vacuum.

Your ability to realise yourself, and the attitude that your partner has to this quest for self-realisation, is shown by the interaction between the Sun in the one horoscope and the planets in the other. This has a profound effect on how you are able to express yourself in each other's company.

Soul Bond

Will's Sun positive Jada Pinkett's Venus

Heart-warming love

This is a major factor for compatibility between you, bringing pleasure and happiness! Jada Pinkett has a lot of love and respect for you - you bring warmth to her heart. She responds to you with a desire to make your life soft and easy and can show you how to enjoy the good things in life, from erotic pleasures to matters of culture and taste. This is naturally heart-warming for you and definitely supportive to your ego. When you are together you emanate a strong aura of style and harmony and have the ability to deal with others gracefully, winning respect and popularity as a couple. As such, you attract success and popularity.

Basically you think Jada Pinkett is beautiful and you would like to be the apple of her eye. You are particularly attracted to her taste and judgement and her graceful presence.

Will's Sun's positive Jada Pinkett's Saturn

A trusted partner

This contact shows quite a strong bond between you - a bond that grows stronger as the years go by. You see Jada Pinkett as a mature person, though perhaps a little inhibited. She in turn, likes to give you the benefit of her experience. Together you can build a solid future, and material and business ventures are very well-favoured. Jada Pinkett can help you to structure your life and make effective plans as stepping-stones to your goals. In this way she would be a very effective manager for you, especially as she does not wish to compete with you for success. She gains satisfaction from knowing she is effective in her support. When you do make progress she will ensure that it does not go to your head.

You will often be called upon to energise Jada Pinkett when she is feeling weighed down by the past or too negative about the future. Buoyed-up in this manner, she and you make slow but sure progress through life.

Will's Sun's positive Jada Pinkett's Jupiter

Mentor and guru

This is a very fortunate contact for you both, bringing happiness and great personal growth. Jada Pinkett can always present things in an optimist light for you. There is tremendous mutual respect and you will find your understanding of life considerably

enhanced by the ideas and views of Jada Pinkett who opens up worlds for you. It is to your advantage to travel and expand your horizons together - especially in spiritual or philosophical directions. She may assume a mentor role in your life, though you will retain the executive power. As trusty counsellor, she can help you on your way to success and recognition, and as a couple, you are surely destined for prominence. You can attain an influential role in cultural, political, intellectual or economic areas.

You will often find that when you express yourself Jada Pinkett will be able to offer you fresh insights which enhance your self-awareness and put your life into greater perspective.

Double-mutuality: Please note that both of you have exactly the same mutual aspect between the planets making cross-contacts from one horoscope to the other. This is a MAJOR factor of compatibility. Whatever other contacts there are between your horoscopes, for better or worse, this double influence shows a strong bond and increases the harmony and stability in the relationship.

Sun/Jupiter: This will be most apparent in terms of beliefs and convictions. As you both strive to achieve wisdom and understanding, the intellectual interaction between you is a major factor - and developing tolerance and the ability to listen to each other will be the litmus test of how much wisdom you have attained.

Sun/Uranus: This will be most apparent in the way you assert your originality and independence. Developing your own unique style and a spirit of experimentation, you can encourage each other in a constant self-development process without trying to own each other in any way.

Sun/Neptune: This will be most apparent in terms of spiritual growth or development of your creative potential. Overcoming your tendency to have unrealistic expectations, you can inspire an appreciation of the true nature of reality in each other.

EMOTIONS

The Moon represents powerful instincts for security and emotional well-being. At the same time the Moon shows subconscious reaction patterns that can either enhance or sabotage harmony. The Moon shows the kind of atmosphere you create in your home. The emotional environment evoked by the expression of your Moon Sign is of crucial importance in your relationship.

Moon in Scorpio

Give emotional strength

With your Moon in Scorpio you are emotionally vulnerable - but it would kill you to show it. You make a profound emotional commitment in your partnership, and expect total commitment in return. You are a master at manipulating the emotional environment to minimise threats to your security. Fear of loss makes you exert a subtle emotional control on your partner. There is no doubt that a relationship with you may be interesting, passionate, intense and rewarding, but to get the most out of it you must reject your secret control strategies and be trusting. Some male cultural traditions force men to

repress the caring and nurturing sides of their nature, represented by the Moon. You tend to be fascinated by emotionally powerful and magnetic individuals, with a strong erotic attraction. On the surface you may find such a relationship too demanding - especially because of jealousy or moodiness in your partner - yet this may suit your unconscious needs because you feel more secure when your partner is at the mercy of passion.

Moon in 1st House

You project an extremely strong emotional aura and are inclined to take people under your wing.

Will's Moon in Jada Pinkett's 12th House

Being with Jada Pinkett evokes a deep longing from your soul and an awareness of the ephemeral nature of all emotional bonds. This could encourage you to develop your spiritual or creative interests, as you know you are basically alone and cannot afford to become too dependant.

With the Moon in Virgo, Jada Pinkett is strongly motivated to keep daily life functioning smoothly and efficiently, and is generally very willing to help her partner in a myriad of ways. Will, who has Moon in Scorpio is comforted by having a supportive partner who is no threat to the inner emotional insecurity which he feels, but generally hides well. For Will, passion and intensity may be a missing element - Jada Pinkett has such a practical attitude.

This section shows the influence of different planets in your own horoscope upon your Moon - major factors in shaping your emotional life. These aspects from other planets to your Moon will evoke the following subconscious patterns, creating a partnership environment in which you must either sink or swim.

Moon positive Ascendant

A caring view

Expressing your emotions is integral with your way of being and you project a strong persona which defines the mood of your environment. You seek to lead a balanced life emotionally, striving to integrate your relationship and family needs into a rewarding and secure life-style.

You are looking for a supportive partner whose family priorities are at least as strong as your own. You may have some difficulty extracting yourself from childhood bonds and tend to transfer your dependence onto the partner in your life, creating a strong mutual devotion.

Moon negative MC

Care versus career

It is not easy for you to integrate your emotional needs with family and career commitments. At times of emotional upheaval, drastic changes may occur both in your professional and in your home life, as you break old bonds and habits. You may feel that your parents are unsupportive and that career commitments are a trial, but with maturity comes responsibility.

You often force family responsibility upon the partner in your life through over-dependence or immaturity. Pursuing a relationship also involves creating stable foundations.

Moon negative Neptune

The emotional swamp

Negative moods tend to drag you down all too easily. You tend to perpetuate feelings of

discontent, sadness or martyrdom from your own childhood, particularly in relation to your mother. Your tendency to isolate yourself when under emotional pressure creates a depressive atmosphere. Ensure that you are involved in something creative and meaningful and strive to avoid emotional swamps - they're just bad habits.

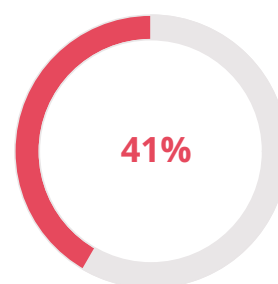

You are subconsciously attracted to a moody and dreamy partner. If your partner becomes withdrawn and depressive, it is partly due to your escapist attitude to emotional issues.

Both Will and Jada Pinkett have an aspect between the same two planets. This shows a strong bond, and increases compatibility and stability in the relationship.

Moon/MC: This will be most apparent in how you balance your emotional needs and the demands of career and family.

The interaction between the Moon in the one horoscope, and the planets in the other, has a profound effect on the kind of atmosphere you create together. This section describes how and where you are emotionally touched by your partner, for good or ill. In this area you are at your most vulnerable and least aware. Conscious work on irrational emotional reactions is the key to harmony here.

Emotional Bond

Will's Moon negative Jada Pinkett's Mars

In-fighting

Though there can be a strong emotional bond between you, this is often marred by outbreaks of bad temper or emotional provocation. You often feel an irrational irritation when Jada Pinkett asserts herself or acts over-independently as this upsets your sense of security in the relationship. At the same time she feels impatience with any signs you show of immaturity or emotional indulgence. Your habits often run counter to what she wants to do and there is no inclination for her to compromise. Only a growing maturity and self-control can resolve this domestic disharmony. There is a strong and instinctual sexual bond, often based on convoluted motherly feelings.

You find that Jada Pinkett does not have the patience to understand your emotional drives and fears, so these feelings are better resolved alone than shared.

Will's Moon negative Jada Pinkett's North Node

Bonds from the past

Though there may be a profound sense of fate in your relationship, there can also be a strong focus on the past. You enjoy a certain security in familiarity yet you also feel that past ties prevent you from growing and maturing. At the same time, your tendency shore up personal security by increasing emotional bonds, may run counter to the needs which Jada Pinkett has to make changes to and find direction in her life. At every significant turn in your partner's life you are challenged to profoundly change your habits and release your hold on the past.

Your emotions play a strong role in the development of the relationship. When you demand emotional security you often put Jada Pinkett in a dilemma.

Will's Moon's positive Jada Pinkett's Mercury

Fond chat

This contact indicates a warm and stimulating bond between you and is very favourable for the relationship. You feel comfortable together and can talk easily - especially about reminiscences. You feel that Jada Pinkett understands you and can help you put words to what you feel. You really know how to make your everyday life function harmoniously and you enshrine this knowledge in your cosy habits and instinctive understanding of each other. You have a precious ability to tune in to what she is thinking. This is very positive for the upbringing and education of children together.

You are stimulated by your partner's witty and stimulating mind and get great pleasure in talking - especially about the past, which you remember well.

Double-mutuality: Please note that both of you have exactly the same mutual aspect between the planets making cross-contacts from one horoscope to the other. This is a MAJOR factor of compatibility. Whatever other contacts there are between your horoscopes, for better or worse, this double influence shows a strong bond and increases the harmony and stability in the relationship.

Moon/Mars: This will be most apparent in the way in which you handle your energy and impulsiveness - and not least your temperament. Dealing with irritation in a mature and understanding way is a challenge for you both.

YOUR SOUL MATE

THE DESCENDANT SIGN

The disposition towards specific kinds of relationships is shown by the East/West horizon in your horoscope - the Ascendant/Descendant axis - and particularly the sign on the Descendant - the 7th House cusp. A person may be attracted to many different kinds of partner, but the horoscope will often indicate a specific destiny with regard to long-term relationships. The lasting partnership will be a mixture of love and destiny - if we are to spend many years together, there will be struggle and growth as well as happiness. This destiny is shown by the 7th house of the horoscope, which indicates personality traits which we tend to deny in ourselves and are fated to seek in others.

Descendant in Taurus

Seeking stability

You will attract a stable partner who is fascinated by your complex and secretive emotional nature and is very concerned with providing for your material security.

In an effort to provide you with the security you need, your partner will work hard and steadily whilst also showing you how to enjoy the pleasures of life. Through partnership you will learn that although emotional upheaval and a life of crisis may be necessary factors for personal development, learning to appreciate what one has, and tasting the good things which life has to offer, are also important values. Your partner may help you relax. Security is a major issue for you in a relationship and you will learn that things must be nurtured and built up, rather than be constantly broken down.

Will's Ascendant in Jada Pinkett's 11th House

With the Descendant in Taurus, Will is seeking a partner who can evoke greater stability and emotional equanimity in him. Jada Pinkett who has the Descendant in Gemini, is looking more for an intellectual sparring partner, who stimulates an exchange of ideas. The stability Will is looking for is not something that holds great attraction for Jada Pinkett.

This section shows the influence of different planets in your own horoscope upon your Ascendant/Descendant axis - major factors in shaping your relationships. These aspects from planets to your Ascendant will give you a specific attitude and behaviour towards everyone you relate to.

Ascendant positive Moon

A caring view

Expressing your emotions is integral with your way of being and you project a strong persona which defines the mood of your environment. You seek to lead a balanced life emotionally, striving to integrate your relationship and family needs into a rewarding and

secure life-style.

You are looking for a supportive partner whose family priorities are at least as strong as your own. You may have some difficulty extracting yourself from childhood bonds and tend to transfer your dependence onto the partner in your life, creating a strong mutual devotion.

Ascendant positive Mars

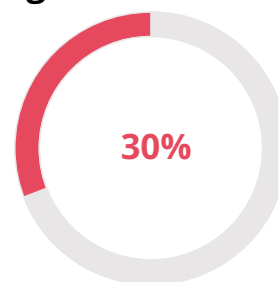

Active relationships

You have the capacity to be dynamic and assertive without trampling over others. Though you are a winner by nature, you love the element of sport and want your competitor to enjoy it as much as you do. In your relationships you appreciate some friendly sparring and love the erotic undertones associated with a minor skirmish. You are lusty and spontaneous and appreciate a relationship which allows for mutual independence.

You like to project a strong image of masculinity and expect to have a natural and spontaneous sexual life in any relationship. Whilst indulging your pleasures today you do not always take tomorrow into account.

Aspects from planets in one horoscope to the Ascendant/Descendant axis of the partner's horoscope, are major factors showing the strong likelihood of a meaningful long-term relationship. It is these contacts which make all the difference between mere attraction, and the ability to influence each other's lives. You have the following bond:

Togetherness Bond

Will's Ascendant negative Jada Pinkett's Mars

Giving a push

This is quite a powerful contact between you both, but although it contributes to a certain attraction, the chances of long-term harmony are pretty slim, though there is excitement to be had. You find Jada Pinkett quite provocative and there is often a clash of wills. She hates to be told what to do, and constantly makes a point of doing exactly what she wants, when you try to get your way. This leads to conflict and argument. The relationship works best when there is an outer challenge for you both to overcome, and when the pace is hot. There may be considerable sexual attraction, but by itself this influence simply brings trouble.

When you manifest the direction you want to take in life you will often encounter considerable resistance or aggression from Jada Pinkett.

Will's Ascendant's positive Jada Pinkett's Mercury

Connecting to networks

This connection shows a strong and favourable contact between you both on a mental level. Jada Pinkett brings an element of fun into your life and will often be instrumental in introducing you to many different, interesting people who can be inspiring for you. You can feel that there is a lot to learn from her, and you are probably turned on by her wit and intelligence. This contact tends to give a brotherly or sisterly feeling and a sense of camaraderie.

Jada Pinkett's ideas and contacts are often instrumental in influencing your choice of lifestyle.

Will's Ascendant negative Jada Pinkett's North Node

Cross-purposes

Though not a major influence in the relationship, this contact shows a connection between your life-path and Jada Pinkett's destiny. There may be a sense of having a strong karmic bond - a feeling of connection from the past - but at future turning-points in your lives the spiritual need for change, which Jada Pinkett experiences, will often run counter to the expectations you have for the relationship. It is important for you to separate your sense of direction from Jada Pinkett's sense of mission.

There will be periods when the way you like to live your life runs at cross-purposes to the spiritual needs of your partner.

Double-mutuality: Please note that both of you have exactly the same mutual aspect between the planets making cross-contacts from one horoscope to the other. This is a MAJOR factor of compatibility. Whatever other contacts there are between your horoscopes, for better or worse, this double influence shows a strong bond and increases the harmony and stability in the relationship.

Mars/Ascendant: In this respect the important challenges for you both are in being mutually inspiring and provoking - stimulating a love of challenge, sense of adventure and the spark of sexual attraction when things are going well, and handling times of tension and irritation when the going is tough.

North Node/Ascendant: This influence gives both a sense of the significance of their life and the importance of relationships to their personal destiny.

In searching for someone to live together with, there is a strong urge to find a person who expresses characteristics which we possess ourselves but fail to recognise and develop. Finding a partner will often compensate for this and make us whole. These characteristics sought in the partner are shown by the planet ruling the sign on the Descendant, and its Sign and House position, and its Aspects. The following section describes the kind of person you unconsciously seek, where you can meet this person - and what behaviour you evoke in the partner through needs unresolved in yourself.

Descendant ruler in 12th House

Bonds of the soul

Your partner tends to be an unassuming and retiring type of person, helpful and humble, with a deep and unexpressed longing. You meet your partner in a place where you try to get away from it all - in a secluded place in the countryside or in some kind of institution away from the bustle of everyday life. Being alone with your partner is a healthy activity in your relationship, as is meditative activity.

Will's Venus in Jada Pinkett's 11th House

You can help smooth the way for Jada Pinkett in her social relations and professional connections. She appreciates your natural ability in helping people to socialise inside her circle and you can feel that you have a valued role to play, creating harmony between very disparate friends and acquaintances.

Descendant ruler positive Mercury

A partner to talk to

Communication is the mainstay of important relationships, as you are attracted to an intelligent and eloquent partner who encourages you and helps you to gain knowledge. Children, travel and a myriad of interests you can talk about, keep your relationship vital

and stimulating.

Descendant ruler positive Ascendant

A partner to define your path

Other things being equal, your partner will have a beneficial effect on your life and strongly support you in your choice of life-style. Unless sabotage mechanisms are at work you may expect to have a happy and fortunate relationship.

Descendant ruler negative Saturn

Responsibility as an issue

Partnership may be something of a burden to you perhaps because the demands of your partner mean that you have to exercise a lot of self-discipline and restraint. You are inclined to choose a hard-working and responsible person with a rather negative attitude, and feel that you have to use your own will to stiffen this person's resolve. Alternatively, your partner may adopt a rather oppressed role because of a tendency to take things too seriously. Whatever the circumstances, it pays to shoulder your responsibilities with determination.

If there are planets in the 7th House there is then a tendency to meet a specific type of partner and have a specific type of experience. Planets in this house show strong drives in you which may only be fulfilled through contact with another. People expressing this energy are mysteriously drawn into your life, thus giving you the opportunity to get to know the shadow side of yourself.

There are no planets in your 7th House. This has no negative effect on relationships and in your case relationship matters are described in the previous section by the ruler of the 7th House.

LOVE & SEXUALITY

ROMANTIC NEEDS

Whatever kind of relationship you commit yourself to in the long term, you have certain values which reflect your personal taste and inclinations, when choosing whose company you wish to enjoy. Should your partner not satisfy all your social needs, you will seek fulfilment in friendships and other connections. These social and romantic needs are reflected by Venus in your horoscope. Not only does Venus show what qualities you value in others, this planet will also reflect feminine self-esteem in a woman's horoscope, and the type of woman which a man may be attracted to in a man's horoscope. For both sexes the position of Venus will show specific types of experiences in love - and what to do about them.

Venus in Libra

Taste and diplomacy

You have great talent for dealing with people, both on a social level and also when it comes to romantic matters. You have a light-hearted and balanced nature, and you are motivated towards creating harmony in your relationships. Your superior judgement and fine aesthetic sense are major assets in your love-life. Though a long-term relationship is important for you, you expect the aura of romance to be there constantly, and are prepared to do something about it if you feel it is missing. You are attracted to a refined kind of partner, with well-developed social graces, for whom partnership is a major factor in life.

Venus in 12th House

Unrequited love

Love-relationships have a strong hold on your imagination though there is no guarantee that they become real or concrete.

Love is often unrequited - you can find love in nature, in poetry, in music, but with worldly relationships you may often put yourself in the position of loving someone who is not physically in a position to return your love, or to get involved with liaisons which will only makes you feel isolated and unhappy. Love blossoms in remote places.

Will's Venus in Jada Pinkett's 11th House

You can help smooth the way for Jada Pinkett in her social relations and professional connections. She appreciates your natural ability in helping people to socialise inside her circle and you can feel that you have a valued role to play, creating harmony between very disparate friends and acquaintances.

As both Will and Jada Pinkett have Venus in Libra, they share the same aesthetic values, and the same high priorities about harmony and romance in a relationship. Both are

outgoing and sociable, with a strong interest in the social graces and cultural matters. Both are very attuned to the needs of the other, and willing to compromise for the sake of peace.

Your capacity to give and receive love and your sense of self-worth are modified by contacts from Venus to other planets in your birth chart. These aspects reflect the many nuances in romantic taste, showing which particular brew of influences go into forming your personal judgements. The following section shows what attributes a person must have to be romantically attractive to you, and how your own personal values influence your love life.

Venus positive Mercury

Good Company

There is no doubt that you are a gifted, tasteful and intelligent person and it will be a pleasure for your partner to share your company. You are a sympathetic listener and a good talker, and the wide variety of interests and skills which you possess ensures a stimulating partnership.

You need an intelligent partner with whom you may have a good conversation and share your tastes and values. You are attracted to a youthful type of partner possessing social grace. You are not averse to a few innocent flirts - more because of a genuine curiosity about partners rather than carnal desire. Pillow talk is your speciality.

Venus positive Ascendant

A charming personality

You have a very pleasant effect on your surroundings because your personal style and taste create harmony around you. For you, love is a blessing and you are both a giver and a receiver. Romance - and the pleasures that go with it - will always be a feature in your life. You like to do things the easy way, even when a confrontation might be necessary to clear the air.

You have a soft, even feminine, aura and this makes you well-loved by men and women alike. You exert a considerable attraction on partners, so amorous adventures are an ever-present possibility.

Venus negative Saturn

Love lessons

Love is a learning experience for you, and early attractions - particularly at the age of 15 - caused you so much pain that you have developed a defensive strategy to avoid getting hurt. You do not show your love for fear of rejection, and therefore miss opportunities when they arise. You play it cool when a potential partner expresses affection, so that it is difficult to get through the initial stages. You may choose a partner for safety instead of love, and regret at leisure. Through developing an inner feeling of self-assurance, in the long term you may gain the self-confidence necessary for a rewarding relationship.

Your ability to express love is inhibited by a veil of insecurity. You are often attracted to an older or more mature partner who can handle your romantically reserved nature, but in the long term this person may get very depressed because the love and warmth you should be showing never gets beyond your formalised facade. Make real efforts to show your vulnerability.

Both Will and Jada Pinkett have an aspect between the same two planets. This shows a strong bond, and increases compatibility and stability in the relationship.

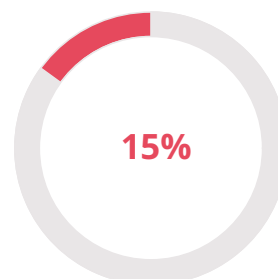

Venus/Ascendant: This will express itself in the balance you learn to establish between

the commitment to partnership on the one hand and the need to integrate ideals of love and romance into it on the other.

Venus/Saturn: This will express itself in the determination and dedication with which you overcome your romantic inhibitions. With time you learn to express your affections, building a secure long-term relationship.

The interaction between Venus in one horoscope and planets in the other, has a profound effect on how you are able to give and receive love. The following section shows to what extent your partner fulfils your need for love and what special behaviour characterises your love-life together.

Love Bond

DESIRES

Sexuality is an essential ingredient for long-term satisfaction in a relationship, and this is shown by Mars in the horoscope. For a man this planet will also symbolise his masculine identity, whilst for a woman the sign Mars is in, and its aspects, will often show the kind of man she is attracted to. Mars will also show how you work together, and your ability to fight for what you need. Where Mars is, there is trouble, because issues of survival and self-assertion are paramount. In our current society both sexes tend to repress Mars - though women will do this more than men - and this may often mean that one's own aggression or oppression comes to expression in the partner's behaviour.

Mars in Virgo

Develop organisational talents

You are hard-working and a perfectionist. With your highly-developed critical sense, conflicts may arise concerning duties - particularly housework. You have to control a tendency to bicker and fight about trivialities. Cleanliness and even prudishness may characterise your attitude to sexuality, but you enjoy physical contact and can be quite sensuous. It is important for you to feel respected for the work you do. Too much criticism, both of yourself and your partner, tends to upset the harmony between you.

Mars in 10th House

Turned on by power

Your energies are very much diverted into career drives as you fight to achieve your goals and to rise in status.

You are the kind of person who has a strong leadership style but may be rather too individualistic for co-operative ventures whilst you certainly do not take kindly to receiving orders. In relationships, work comes first, and many of your battles are fought against authority. Inasmuch as your need to decide things for yourself affects relationships, conflict arises over who has the executive power. Erotic adventures may arise in business

and career situations, perhaps because of the charged situations which may arise in challenging professional situations.

Will's Mars in Jada Pinkett's 9th House

You bring out the spirit of adventure in Jada Pinkett and she feels stimulated to explore herself on an inner philosophical level, as well as travel together with you on a journey of understanding. You may adopt a role of mentor and your opinions can be very valuable to her, but you can just as easily be irritating and intellectually dominating.

With Mars in Virgo, Will is a busy and hard-working person, with a pronounced ability to find flaws, both in Will4 and in his partner. Jada Pinkett, who has Mars in Aquarius, is more the unconventional type, with eccentric sexual tastes and a strong desire to live a liberated life. Sexual relations may be rather technical, but exciting.

Your ability to express your will and desires is considerably modified by the influence of other planets in your horoscope upon your Mars. These aspects show how you might best express yourself sexually and the kind of problems that may arise when you do. For women, aspects to Mars will often describe the behaviour of the man, or dominant partner, in the relationship. If this appears to be so, then projection is at work. By learning to be more clear-thinking, and asserting your genuine needs, these negative projections may be eliminated or at least modified.

Mars positive Venus

Love and passion

You have a natural and perhaps playful attitude to the opposite sex. You like to have fun with your partner and to get out-and-about and do things. Whatever else may be true, your erotic needs play an important role in your love-relationship. In sexual matters you are spontaneous, and feel no split between your sexual and romantic nature - it is natural for you to express your love through passion and desire. There is a great potential for you to enjoy your relationship on both the physical and spiritual level.

As a man you have a special ability to integrate yourself with the feminine side of your nature, and this will enable you to spontaneously establish a very close contact with partners. You will often feel attracted to a partner who is independent and has distinctly masculine qualities.

Mars positive Saturn

Problem crusher

You are a hard-working and determined person, strongly motivated though rather shy and careful and a little unsure of your abilities. You spend years building up your self-confidence both professionally, and in the arts of love, and ultimately you may achieve considerable success. You are not exactly comfortable with your body - which you tend to use as an instrument of your will - and this means that you are slow to arouse sexually. You should treat your body more tenderly, go to body-building classes or enjoy an occasional massage.

In your early adult years, sexual expression did not come easily to you perhaps because you are more concerned with performance than with tenderness. You have a tendency to assume a paternal role which is not in itself erotically stimulating. With a little training you may become an accomplished lover, particularly because you do not rush things.

Mars positive Mercury

Repartee

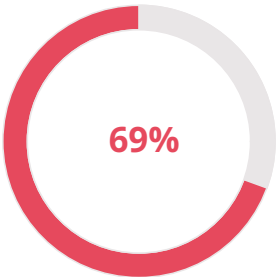

You have a sharp and witty mind and are full of ideas which you are eager to put into

practice. You may be caustic but you are always stimulating. A dynamic traveller and avid learner, you probably have a wide network of friends and acquaintances. Always active, you may be involved in many projects and are always learning something new. In your partnership you need someone you can talk to, bounce ideas off, and do exciting things with.

You have a talent for communication and your major weapon of seduction is your persuasive, witty and communicative nature. Something of a flirt, you send your arrows off in many directions. There are many temptations amongst the eager students of your ideas.

Both Will and Jada Pinkett have an aspect between the same two planets. This shows a strong bond, and increases compatibility and stability in the relationship.

Mars/Saturn: In this respect the important challenges for you both are in dealing with energy and ambitions and finding the time, amidst all the hard work, to have a rewarding sexual relationship.

<p><i>The interaction between Mars in one horoscope and the planets in the other, has a profound effect on how you are able to express your will and fulfil your desires. These contacts will also show what form of sexual expression characterises the relationship. Also you may expect both conflict and excitement in the areas specified in this next section.</i></p>	<p style="text-align: center;">Sex Bond</p>  <p style="text-align: center;">69%</p>

Will's Mars positive Jada Pinkett's Mercury

Good-humoured jibes

Your relationship is characterised by extremely active communication and a lively ping-pong of ideas back and forth. On the one hand you indulge in light-hearted banter together whilst on the other there is a strong drive to investigate and explore the world of ideas and knowledge. Contact with others, education and travel are uppermost in your minds. No sooner do you hear Jada Pinkett express her ideas than you want to translate them into actions, so together you make a dynamic and intelligent couple. This influence in itself is not particularly romantic or emotional - it simply emphasises the importance of communication and intelligence in the relationship and demonstrates an ability to raise the spirit through humour and pranks.

You are most inclined to take the initiative while Jada Pinkett helps you verbalise your intentions.

Will's Mars negative Jada Pinkett's Ascendant

Giving a push

You have a powerfully provocative effect on Jada Pinkett, forcing her to assert herself in one way or another. This makes your relationship very dynamic and as long as there are challenges and activities then it can function. You awaken a strong sexual fascination in her though this can often bring disturbance to her life. There can be too many quarrels and arguments. You like Jada Pinkett to take the initiative but tend to fight it when she does. Such competitiveness can be wearing in the long run. You should use your energy to inspire and encourage, not to sabotage and provoke.

Impulsive action on your side will often force an adjustment of life style for Jada Pinkett,

who feels provoked and unsettled - yet stimulated - by your desires and needs.

Will's Mars negative Jada Pinkett's Jupiter

Intellectual provocation

There are strong ideological differences between you and this can result in long discussions about matters of principle. You may find this stimulating - and it can be if you keep a sense of perspective and humour. You are looking for an intellectual capability in Jada Pinkett which she obviously has (otherwise you would not be with her) but which you constantly challenge. Unconsciously you tend to set up situations in which she fails to live up to your expectations and this results in Jada Pinkett pontificating and you rebelling against her supposed intellectual authority. Nevertheless you can expect the relationship to be exciting, with a good deal of travel and adventure. There is a considerable sexual appetite - many differences of opinion are resolved this way - yet there are often moral dilemmas connected with your sexual life. You enjoy challenging the norm.

Jada Pinkett soon puts your tantrums into perspective - it may irritate you but you can learn a lot from her way of seeing things.

Double-mutuality: Please note that both of you have exactly the same mutual aspect between the planets making cross-contacts from one horoscope to the other. This is a MAJOR factor of compatibility. Whatever other contacts there are between your horoscopes, for better or worse, this double influence shows a strong bond and increases the harmony and stability in the relationship.

Mars/Ascendant: In this respect the important challenges for you both are in being mutually inspiring and provoking - stimulating a love of challenge, sense of adventure and the spark of sexual attraction when things are going well, and handling times of tension and irritation when the going is tough.

Moon/Mars: This will be most apparent in the way in which you handle your energy and impulsiveness - and not least your temperament. Dealing with irritation in a mature and understanding way is a challenge for you both.

COMMUNICATION & SOCIETY

CONTACTS AND COMMUNICATION

However strong the bonds of love, in the long term a healthy relationship also depends on the ability to listen to and understand each other. Many relationships founder on poor communication, once the fires of romance and sexuality abate. The ability to communicate is shown by Mercury in your horoscope, and the following section shows the strengths and weaknesses you have in this area, their effect on your partner, and steps you can take to improve on the contact between you.

Mercury in Libra

A balanced view

People may learn a lot about the art of diplomacy from you. You are a great listener yet you are not slow to come with constructive proposals for action. However, you do vacillate - often finding it very difficult to reach a decision, even in minor matters. Perhaps you are too rational - in the last analysis, a decision is made intuitively. Your partner may find your need to see issues from every angle very exasperating.

Mercury in 12th House

Your communicative skills find their best expression in the inner world of your imagination. You have a great capacity to tune in to the inner voice of nature and other subtle spiritual currents.

Will's Mercury in Jada Pinkett's 11th House

Being with Jada Pinkett stimulates your abilities to make contact with other people and build up a network of friends and colleagues with shared ideals. You facilitate her in making social progress, because of your interest for and curiosity about the people she mingles with.

With Mercury in Virgo, Jada Pinkett has an excellent analytical mind and an unusual capacity for administrating complex systems. Will, who has Mercury in Libra, also has a love of order and harmony. However he is far more people-oriented, whilst Jada Pinkett is more focused on the inanimate. Whilst the social graces have high priority for him, Jada Pinkett thinks in practical terms about how to get things to function.

Aspects between the other planets in your horoscope and your Mercury will show talents or challenges with regard to your ability to express your ideas and be open to other people. These aspects describe the specific ideas you have and the kind of reactions you evoke in others through the way you communicate these ideas.

Mercury positive Venus

Good Company

There is no doubt that you are a gifted, tasteful and intelligent person and it will be a pleasure for your partner to share your company. You are a sympathetic listener and a good talker, and the wide variety of interests and skills which you possess ensures a stimulating partnership.

You need an intelligent partner with whom you may have a good conversation and share your tastes and values. You are attracted to a youthful type of partner possessing social grace. You are not averse to a few innocent flirts - more because of a genuine curiosity about partners rather than carnal desire. Pillow talk is your speciality.

Mercury positive Ascendant

A born communicator

You are a talented communicator with a gift for getting into contact with people. Building up a communications network with the help of whatever modern technology that may be necessary is something you know how to do. Naturally your partnership benefits from the ability you have to talk on the one hand, and listen on the other.

Mercury negative Saturn

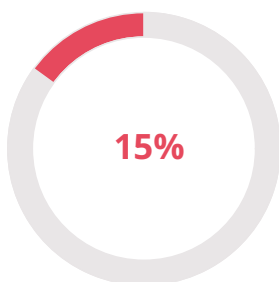

Mental defensiveness

You are over-sensitive about being thought to be unintelligent and this makes you defensive, brooding and often rather pedantic. This often rebounds upon your partner, who may become unsure and unclear when communicating, sensing that there is a wall between you. If your mind is closed, strive to open it. Make it easier for your partner to get through to you.

Both Will and Jada Pinkett have an aspect between the same two planets. This shows a strong bond, and increases compatibility and stability in the relationship.

Mercury/Ascendant: This will express itself in the considerable communication skills which characterise the way you project yourselves in the world, and your need to meet people and create a network of shared ideas.

Mercury/Saturn: This will express itself in the struggle you have to communicate smoothly and without defensiveness, as well as in your ability to tackle practical and business issues together.

<p><i>The interaction between Mercury in the one horoscope and the planets in the other, has a profound effect on your ability to communicate with and understand each other. The following section shows the ease or difficulty your partner has in communicating with and understanding you, and the kind of situations that may arise as a result.</i></p>	<p>Talk Bond</p>  <p>15%</p>

BELIEFS AND UNDERSTANDING

The planet Jupiter shows the area in your life in which you express optimism, hope, and a belief in the future. When transposed onto your partner's horoscope it shows where you can most inspire your partner. The following section shows how and where you bring insight and understanding and in which area of your partner's daily life you have a very beneficial effect.

Will's Jupiter in Jada Pinkett's 10th House

Being with you almost guarantees an increase in status for Jada Pinkett. She will benefit from your insight and guidance as regards her professional career and you can perform a useful role as advisor. Your influence and connections can be important in this respect. You will find yourself assuming a natural authority in the relationship, in a benevolent sort of way.

Will's Jupiter positive Jada Pinkett's Sun

Mentor and guru

This is a very beneficial influence because you are able to absorb, nurture, contain and expand all the positive facets of your partner's life. You show tolerance and understanding - because you really do understand and appreciate the character of Jada Pinkett. In turn she warms to you and you help her develop a positive attitude to herself and her future. You help her expand her horizons through cultural and philosophical interests, world travel and further education. In this way you increase her awareness of life's big issues and help her develop a deeper insight into the meaning of her life. Together you make a popular and influential couple.

You win a lot of respect and admiration from Jada Pinkett because of your insight and wisdom.

Will's Jupiter positive Jada Pinkett's Moon

A blessed home

This is a most pleasurable influence because you enhance the quality of life for Jada Pinkett, and the feeling is mutual. First of all she feels understood, and being understood makes her feel secure. Feeling secure, she is capable of providing a very pleasant environment in which you thrive. In return you open many doors for her, and this means that you can indulge cultural interests and especially enjoy tourism and exploration. Jada Pinkett may develop a dependence on you - especially as regards her education in the ways of the world. She absorbs your insight and vision greedily. This makes you feel clever. This influence is also fortunate for home, family and children - you prosper and thrive.

You are very quick to reassure Jada Pinkett whenever she is moody or insecure. Your ability to present a positive scenario for the future cheers her up.

Will's Jupiter positive Jada Pinkett's Midheaven

Career and family blessings

You have an extremely beneficial effect on Jada Pinkett's career, both by the influence you wield and your ability to offer the right advice at the right time. Through knowing you, she gains confidence in her future and she is strengthened by your intellectual and financial encouragement. You have an expertise that Jada Pinkett can draw on - especially if her work concerns consultancy or travel. Your influence is also beneficial for her family life, and she feels that your support and encouragement helps her in most areas of her life.

You can show your partner how changes in her professional life are merely opportunities for progress.

Double-mutuality: Please note that both of you have exactly the same mutual aspect between the planets making cross-contacts from one horoscope to the other. This is a MAJOR factor of compatibility. Whatever other contacts there are between your horoscopes, for better or worse, this double influence shows a strong bond and increases the harmony and stability in the relationship.

CHALLENGES AND POWER GAMES

The planet Saturn shows where you experience and overcome the major challenges of life. Transposed onto your partner's horoscope, it shows in which area of your partner's daily life you make the greatest demands on your partner's patience and sense of responsibility, and what kind of challenges arise as a result. There is no escaping the difficulties encountered here, but this influence is nevertheless a major growth factor in the relationship.

Will's Saturn in Jada Pinkett's 5th House

Jada Pinkett often feels you have a negative attitude towards her when she expresses herself spontaneously through creativity, or simply at times when there is fun to be had. You may feel concerned when you see her being immature or childish and you often feel forced into a kill-joy role in which you try to get her to grow up. Whilst Jada Pinkett can feel crushed by what she considers to be your negativity, you can perform an important role in her life as a maturing influence. For you there are times when self-realisation smacks of irresponsibility and - particularly when there are children to be brought up - you are quick to remind her of her family priorities.

Will's Saturn negative Jada Pinkett's Uranus

Blowing bridges

This contact, though not particularly prominent in your everyday life together, shows conflicts arising concerning your need to maintain the status quo and your partner's need to sweep away the restrictions of the past and embrace change. At times when the structures of your life are battered by the forces of renewal you tend to shore up the damage, insisting on the benefits of tried and trusted methods - methods which can often be shown to have failed. Jada Pinkett on the other hand goes to the other extreme, having little respect for what has worked successfully in the past. Furthermore she has a tendency to threaten to abandon what you have built up together, putting you in a very weak position. Try to make important changes using a process of negotiation which satisfies your disparate needs and methods.

Your careful plans and strategies are tossed aside by Jada Pinkett. she prefers more drastic and liberating methods.

Double-mutuality: Please note that both of you have exactly the same mutual aspect between the planets making cross-contacts from one horoscope to the other. This is a MAJOR factor of compatibility. Whatever other contacts there are between your horoscopes, for better or worse, this double influence shows a strong bond and increases the harmony and stability in the relationship.

Saturn/Uranus: This influence relates to a shared attitude towards the establishment and the force of tradition and an awareness of the need for renewal and change.

HOME AND CAREER

The IC/MC axis (the vertical axis of the horoscope representing the beginning of the 4th and 10th Houses) shows domestic and career drives. Contacts between planets in one horoscope and this axis in the other will show how you influence each other in these areas. This can be particularly important if you share career interests, or if family matters are paramount.

Will's MC negative Jada Pinkett's Mars

Conflict of interests

This contact shows a certain amount of conflict and competition as far as your professional and domestic life is concerned. Jada Pinkett's attitude to your career and family responsibilities is not exactly supportive, and quarrels and disagreements can arise as she strives to assert her own will. You spend too much time fighting battles with her and would do far better concentrating your energy on achieving career goals, without allowing yourself to get provoked. It is unlikely that Jada Pinkett will get on with your own family or feel comfortable in the domestic role you have assigned to her. The less help you expect in this area, the more harmony there will be.

Jada Pinkett has a tendency to react aggressively when you initiate career or domestic changes.

Will's MC negative Jada Pinkett's North Node

Goals versus destiny

Though not a very important factor in the relationship, this contact shows some mysterious bond to Jada Pinkett either through the work which you do or through some aspect of family heritage. There may be a very strong sense that being together accords with some kind of higher fate, or some long-lost bond. However there may be too much focus on family roots or on the past in some way. At times of spiritual change for Jada Pinkett a latent disparity in your destinies will be revealed.

Major professional or domestic decisions on your part may clash with what Jada Pinkett sees as a higher purpose in her life.

Will's MC's positive Jada Pinkett's Ascendant

Welcome authority

This interesting contact shows a special kind of bond between you both, which somehow mixes together your sense of career and Jada Pinkett's sense of direction in life. You find yourself assuming some kind of authority in her life, and she is happy to allow you to adopt a kind of parental role. She may live her life to accord with your ambitions, and your goal may correspondingly be to give meaning to her life.

Changes in your career or domestic life will often mean radical changes in Jada Pinkett's lifestyle.

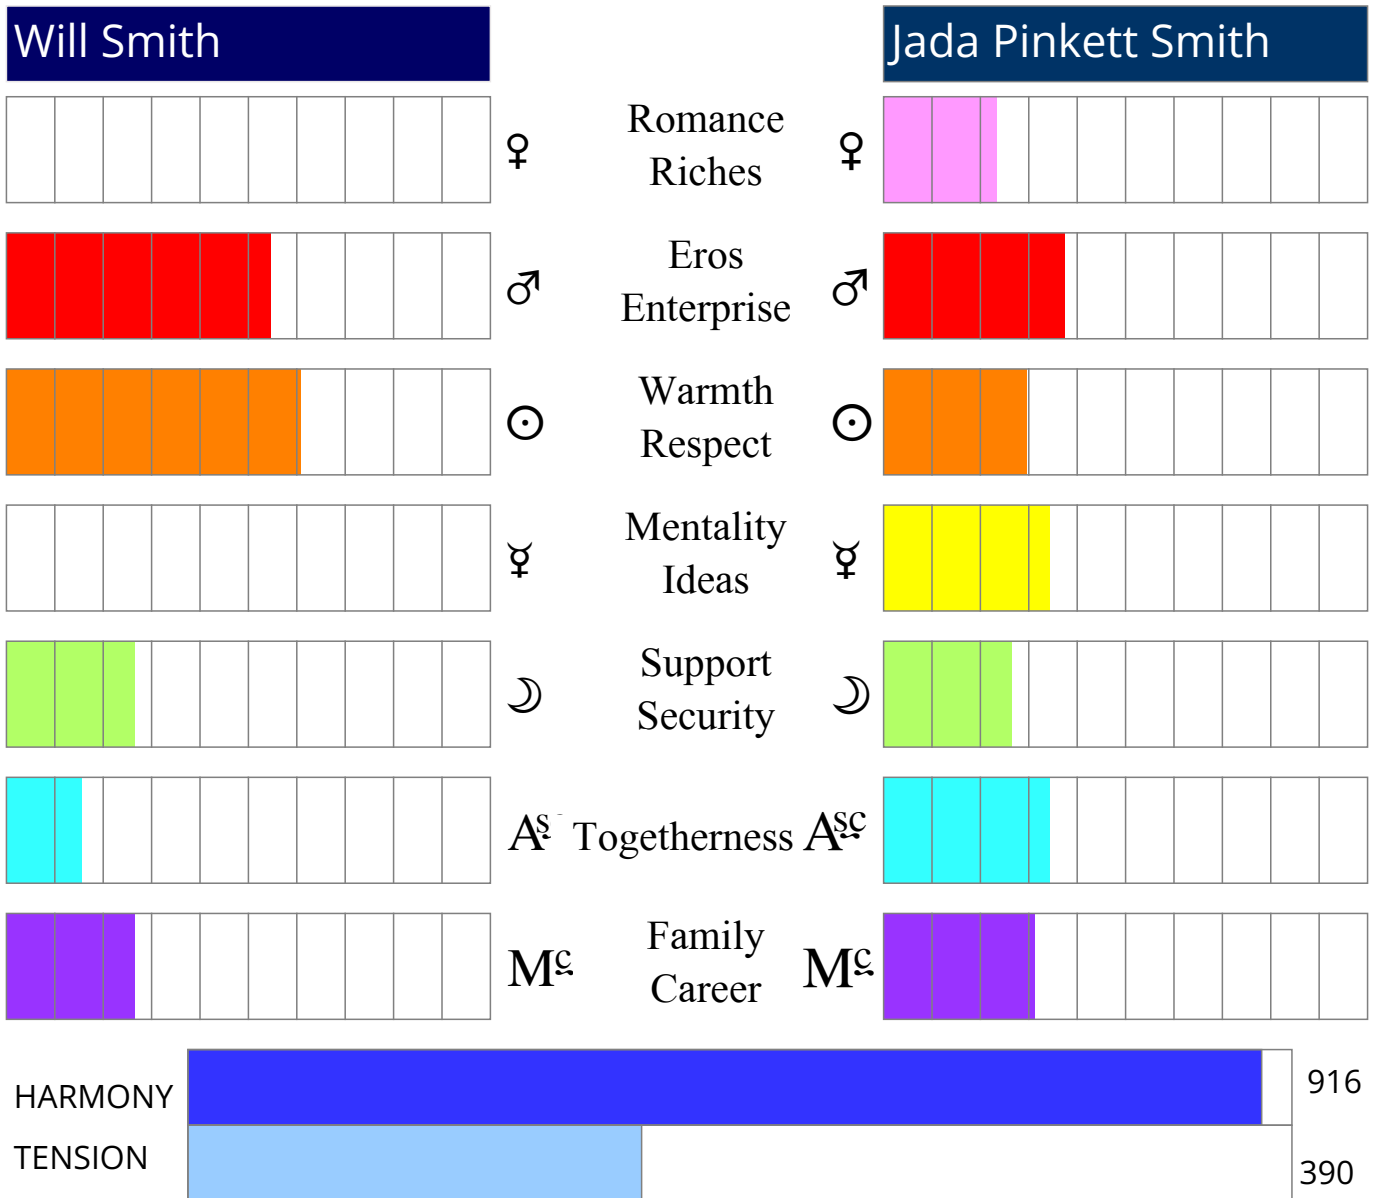

Double-mutuality: Please note that both of you have exactly the same mutual aspect between the planets making cross-contacts from one horoscope to the other. This is a MAJOR factor of compatibility. Whatever other contacts there are between your horoscopes, for better or worse, this double influence shows a strong bond and increases the harmony and stability in the relationship.

Uranus/MC: With this influence both are willing to experiment with alternatives, both in terms of the family and career.

COMPATIBILITY

The graph which follows shows at a glance to what extent both partners fulfil each other's needs in major areas of life. As each partner will experience the contact quite individually, there are separate columns for both. Each column of the graph is double, reflecting contacts which are either harmonious or disharmonious. Though, from the point of view of pleasure, harmonious contacts are to be preferred, disharmonious contacts also show compatibility and can be very stimulating. There has to be something to work on and overcome in a relationship. The final column shows general compatibility between both people. (The graph is based on all major and minor aspects and is fine-tuned to the exactitude of planetary orb).

This report has been designed to reflect your experience of Jada Pinkett Smith. Your partner will have a substantially different experience of the relationship
